

# Double Cup Lifter

## Product Specifications

- Double 5" Cup Floor Tile Puller
- 10" handle length
  - lifting capacity is 75-80 lbs. on clean/dry flat non-porous surface\*

The Double 5" Cup model is our current best seller because it has a greater lifting capacity than our other models and offers greater stability due to the larger size of the suction cups.

It is the best tool for an area where floor tiles are lifted repeatedly.

ICE-DBL            Double Cup Tile Puller  
Brkt                Wall bracket

*\*OSHA standards require weights over 50 lbs be handled by two personnel.*
