

Triad's Hybrid Panel

Save space between the cold aisle racks. No longer do aisles have to be 4' wide. They can now be 3' wide with Triads New Hybrid panel design.

Patented Actuating Frame Levelers

Dual Lift-n-Lock Integrated Handles

TopSet Leveler Adjusters

Hybrid Panel

1500 LBS. LOAD RATING
FITS MOST RAISED FLOORS SYSTEMS

Additional Triad® Hybrid panel Features:

- Static Dissipative Textured PowderPlate finish eliminates delamination and missing/broken Edge trim issues.
- TopSet levelers are designed for easy leveling to different raised floor panels
- One panel fits most all new or existing raised floor systems.

General Application:

- Data Center Cold Aisle to save space between rows of racks.
- Flexibility of Cable Cutouts, Solid surface and Cooling in one panel.

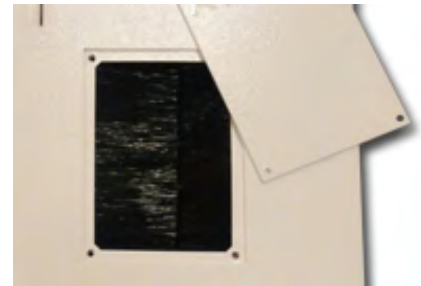

Patent Pending Features:

Patented Actuated Frame Levers
